

Pre-fit, prefinished, perfectly color-matched interior wood door and steel frame.

Faster, easier installation resulting in significant savings.

Team up a prefinished, pre-fit wood interior door with a prefinished Timely steel door frame in perfectly matched colors—and what do you have?*

An ideal alternative to the high cost and problems of jobsite painted pre-hung wood doors.

And because the matching doors and frames are prefinished at the factory, there's no need to worry about inadequate prep work, inferior paint or painting. Costly jobsite clean-ups, touch-ups and work interruptions are avoided as well.

Ease Of Installation

- Installation even after walls are painted, wall papered, or tiled/textured.
- Greater design flexibility with five designer frame casings and pre-fit flush or 6-panel doors.
- Extra durable baked-on polyester door frame paint.
- Excellent quality and uniform application of factory-applied door paint.
- No jobsite masking, caulking or sanding.
- Added strength of steel door frame construction, plus superior anchoring system.
- Space-saving packaging configuration lower freight costs.
