Shown with TA-8 Steel Casing as example.

TA-46 Gasket: Weather Strip/Smoke Seal. Available in Browntone and White.

Note: Also available for a limited time in Western White. (Specify Color and Length)

Our new **GalXC™** material is now standard for all Timely door frames raising the quality and performance properties to the highest level at an exceptional value. **GalXC** is a Hot Dipped Galvanized product that provides superior corrosion resistance in the harshest environments while balancing outstanding surface, gauge, and shape quality.

The prefinished steel **CK-Series** Kerfed Frame is a great option for any opening requiring a Smoke Seal, Weatherstrip or STC rating. The **CK-Series** frames are the ideal solution for the Hotel/Motel market, where creating a quiet stress free environment for travelers is of the utmost importance.

Our **CK-Series** Kerfed Frames are made using 18 Hot Dipped Galvanized prefinished steel. **GalXC** is easier to specify, ALL Timely frames are now made of **GalXC**, so they can be installed in any environment.

Finishing options include 7 standard colors, 30 pre-matched custom colors, project matched custom colors or primed for field painting.

Fire ratings up to 90 minutes are available.

Mullions are not available for **CK-Series** Kerfed Frames.

Our **CK-Series** Kerfed Frames will accommodate a 1 3/4" door weighing up to 500 lbs.

Our **TA-46 Weather Strip/Smoke Seal** is available in 4 colors and can be Factory installed to reduce job site labor cost.

AVAILABLE IN JAMB DEPTHS

4" to 8" in 1/8" increments.
